

AUSTRALASIAN MANGROVE AND SALTMARSH NETWORK

**3-6 NOVEMBER
TAURANGA, NEW ZEALAND**

We invite your organisation to consider being a sponsor for the Australasian Mangrove and Saltmarsh Network 2025 to be held in Tauranga, New Zealand in November 2025.

The Australasian Mangrove and Saltmarsh Network was established to address the management issues that face tidal wetland habitats around the world. For the first time ASMSN will be hosted in Aotearoa New Zealand and will attract delegates from Australia, New Zealand and the Pacific. Our annual meeting brings together those who care about intertidal spaces – Traditional Owners, Hapu and Iwi, researchers, coastal managers, industry representatives and members of community groups who work across the wetland mosaic.
